ALWAYS SOMETHING
500
ALWAYS MORE.

True legends don't grow old: they change. Just like **500**, the icon of Italian design and lifestyle, which has been reinventing itself for more than 60 years while remaining faithful to its original spirit. Hip and cool ever since it first took to the road, today the **500** has a bolder and more captivating personality, greeting the world with two new fabulous trims: an irresistibly cheeky charm guaranteed to turn heads.

When it comes to the **500**, it's not just the details that make the difference.

DETAILS MAKE PERFECTION.

On the exterior, look no further than the rear light clusters in matching body colour and the chrome inserts, while inside, the dashboard, the steering wheel, the buttons and all the materials, are trendier than ever: every last detail of the **500** is designed to enhance the car's originality while at the same time bestowing an even more sophisticated status to the model.

ALL EYES ON ME.

That's what the **500** seems to want to say with its new front - now even cheekier with the new ribbing, the enhanced whiskers and the front bumper surrounding the three-dimensional grille - not to mention the daytime running lights, reminiscent of the zero in the logo, that become a veritable signature feature, impossible to mistake with any others.

STYLE IS INNATE.

EITHER YOU HAVE IT,
OR YOU DON'T.

WITH BI-XENON

In addition to the new line of front and rear optical groups developed in collaboration with Magneti Marelli, **Fiat 500** also delivers Xenon headlights, which expand your field of vision, increasing the light flux and diffusion. The results are incredible: your night vision increases by 200% compared to normal halogen headlights, giving you at least one extra second to spot obstacles and 28 metres advantage in terms of braking distance when travelling at 50 km/h. This means less stress, less eye fatigue and even notable energy saving: Xenon lights in fact consume less and last longer, almost three times longer than halogen lights.

NEW HYBRID ENGINE.

Let's welcome the mild-hybrid of Fiat 500. A new engine supported by a 12v electric system to lower consumption and CO₂ emission consumption. This technology provide an assist during the acceleration to enhance the driving pleasure (E-ASSIST). This is possible thanks to a 12v lithium battery that is recharged during deceleration (E-COASTING) and braking (E-BREAKING) without any other support needed.

Reduction of consumption and CO₂ emissions (up to -20% compared to previous engines).*

Easy to use, the battery recharges itself thanks to the E-Coasting and E-Braking features.

Homologated as a hybrid, they can take advantage of all possible advantages such as free parking, ZTL entry, tax bonuses.

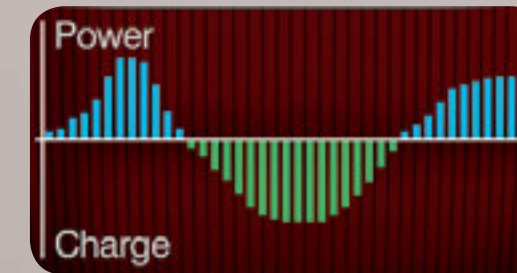

More fun thanks to the E-Assist function

ENERGY FLOWS:

Have a look at the TFT Screen to discover how the myId-hybrid engine works, when the battery is supporting the driving pleasure and when is recharging.

TRIP DIAGRAM

The TRIP DIAGRAM allows you to monitor when the electrical engine is providing support to the petrol engine (Power) or charging the lithium battery (Charge).

ENERGY SAVING

Below 30km/h, and whilst under certain conditions, the dashboard will suggest to switch to Neutral, this will turn off the engine, saving fuel consumption and reducing emissions.

MORE ENGINES, MORE CHANCES.

Fiat recommends original lubricants

The specification (B) indicates the value of CO₂ and fuel consumption determined on the basis of the measurement / correlation method referring to the NEDC cycle as per Regulation (EU) 2017/1152-1153.

The specification (C) indicates the value of CO₂ and fuel consumption determined on the basis of the new WLTP test procedure as per Regulation (EU) 2017/1347.

The CO₂ and fuel consumption values obtained according to applicable regulation are indicated in order to allow the comparison of vehicle data. The homologation values of CO₂ and fuel consumption may not reflect the actual values of CO₂ and fuel consumption, which depend on many factors related, by way of example but not limitation, to the driving style, the route, the weather and road conditions, the condition, use and equipment of the vehicle.

The indicated value of CO₂ and fuel consumption refers to the versions of the vehicle with the highest and the lowest values. Those values may change with the subsequent configuration depending on equipment selected and/or size of tires selected.

The indicated values of CO₂ and fuel consumption are not definitive and may evolve as a result of changes in the production cycle; more up-to-date values will be available at the selected official dealer of the FCA network.

In any case, the official values of CO₂ and fuel consumption of the vehicle purchased by the customer will be provided with the documents accompanying the vehicle.

In cases where the values of CO₂ and fuel consumption are relevant for the purposes of calculating taxes and duties related to the vehicle, reference should be made to the applicable laws in each country.

BEAUTIFUL AND ACCESSIBLE.

Fiat 500 fancies being this way: pop, and affordable for everyone.

And that's why it's approaching the market with a wide range of customisable and innovative instalment plans to make it affordable for everyone, always.

INSTALMENTS - LEASING - MORE

Payment methods that best suit your needs, offering a wide and appealing range of finance solutions.

CHOOSE YOUR 5: LONG TERM RENTAL

Lasting 5 years, with the instalment inclusive of the road tax, insurance and ordinary and special maintenance services.

Plus, for just 5€ a month you can enhance the contract further with 5 different useful and innovative service packages, such as winter tyres, courtesy car, car cleaning service plus repairs in the event of punctures, and much more.

Choose your 5, freedom and simplicity.

All of the solutions offered by the FCA Bank can be combined with insurance services for the person and the car with high added value for the customer.

* plus VAT

MAINTENANCE AND REPAIR SERVICES

MAXIMUM CARE EXTENSION OF GUARANTEE: MAXIMUM COVERAGE AND ZERO WORRIES

Maximum care protects your car's electrical and mechanical parts for up to 5 years and offers the option of choosing different durations depending on your needs.

You can apply for Maximum Care at any Dealership or Authorised Workshop within two years from the beginning of the warranty providing that your vehicle has undergone scheduled servicing as described in the Fiat Owner Handbook.

POWERTRAIN CARE: ESSENTIAL COVERAGE AND MAXIMUM SAVINGS

Powertrain Care is the most affordable plan, and protects the engine's mechanical parts, gearbox, transmission and control unit for up to 5 years.

You can apply for Powertrain Care Warranty at any Dealership or Authorised Workshop within two years from the beginning of the warranty providing that your vehicle has undergone scheduled servicing as described in the Fiat Owner Handbook.

Choose the most suitable duration and mileage for your car.

"EASY CARE": A MAINTENANCE PACKAGE CREATED SPECIALLY FOR YOUR CAR

To perform all the mandatory and manufacturer recommended operations, we have created "Easy Care" for purchasing scheduled maintenance services in advance at competitive prices.

You can choose to purchase our maintenance packages when you purchase your new car or before the first scheduled servicing.

TOP CARE: THE MOST COMPLETE PROGRAM

Top Care is the perfect combination of the Extension of Guarantee and Ordinary Maintenance: simply choose the mileage that suits your needs, and the service provides all the tranquillity of the Extension of Guarantee while adding the scheduled services, leaving you free to always drive your car in optimal condition.

* For more information on conditions, limitations and exclusions in Mopar Vehicle Protection service contracts, contact your Dealership and/or Authorised Fiat Workshop or visit www.fiat.mopar.eu.
